In Clark county new corn has been contracted for at \$2 a barrel.

LARGE quantities of new wheat are received here every day by rail.

AN eminent historian traces base ball back to the time when Rebecca went down to the well with a pitcher and caught Isaac.

MR. CLARENCE CAMPBELL, yesterday, in attempting to drive a peg into the ground with a stone, struck one of the fingers of the left hand and crushed the bone.

CASIOR oil, which is so nauseous to human beings, is death to flies and mosquitoes. A small quantity of the oil placed in a saucer will drive the pests away, and the British Medical and Surgical Journal says the leaves of the plant give out a property deadly to insects, when placed in a room.

MR. THOMAS SADLER, who was injured by the accident at the depot yesterday, rested well last night and is considered much better to-day. His injuries, we are pleased to learn, are not as serious as at first supposed. His hand was badly crushed but his arm was not broken as at first reported.

A CORRESPONDENT of the American Agriculturist claims that winding a string tightly around the body of a limb in June or July, will cause barren fruit trees to yield the following season. Let our readers try it on single limbs and alternate trees this summer. The string should be cut the following winter or early spring.

The Bracken Chronicle says:
"Col. Colton, the gentleman who has charge of the construction of the C. & S. E. R. is stopping a few days at the Taylor House, this city, and says he is awaiting orders from headquarters to resume active work along the line, and that he expects to receive that word at some time within a few days, that all their implements of labor are on the road, or in close proximity thereto, ready and waiting for the orders, and that Major Kirby is at New Richmond, O., awaiting his orders. So all things considered the C. & S. E. is presumably a pretty lively corpse yet. We still maintain our confidence in the early completion of the road from this place to Newport, Col. Colton says that the same can be completed, and cars running, before winter sets in, unless a continuous high water in the river prevents their work on bridges and abutments, and that the grading can be completed in less than six weeks."

To the People of Mason County.

I am satisfied that being an independent candidate for jailer, will divide the democratic party, and, perhaps, secure the election of the republican candidate. This I do not desire to see accomplished, and for the sake of harmony and the success of the democratic cause, I now withdraw my name as a candidate for jailer.

To those friends who have so generously sustained me in the race thus far, I tender the tribute of my sincere gratitude, and earnestly hope the whole democratic party of Mason county will rally to the support of the regular democratic candidate.

Respectfully,

JAMES HENDRIXSON.

Pleasant Occasion.

MAYSVILLE, Ky., July 21, 1882.
Ed. Bulletin: A social party consisting of the following persons assembled at the residence of Mr. Louis Paul, in the West End on Thursday evening: Mr. William Trouts and family; Mr. and Mrs. Robert Willett; Mr. and Mrs. Emmet; Mrs. S. O. Porter, Miss Mamie Kriner, of Paris, Ky. Misses Belle Bridges, R. Schatzmann, Annie Bissett, Mary Swartz, Lottie Fansler. Messrs. John Toup, G. W. Gates, H. Bridges and Prof. H. M. Perry. The evening was most pleasantly spent in music and jolity. At half-past ten o'clock the party was invited to the dining room, where they were served with a sumptuous repast. The dining room was beautifully decorated with flowers, evergreens and gayly colored Chinese lanterns. As the company was ignorant of what was in store, the surprise was a most agreeable one. The company dispersed at half-past eleven o'clock, with the best impression of the hospitality of the host and hostess. X.

The East Kentucky News says:

A fishing party composed of Col. Frank Owens, of Maysville; Mr. Meyer and Gus Calvert, of the house of Louis Stix & Bro., Cincinnati; Major H. W. Spargur, of Hillsboro, Ohio, and Capt. A. P. Taylor, of Greenup, left by rail Saturday for the falls of the Great Kanawha, where they doubtless enjoyed a good deal of fun without catching many fish.

Finger Cut Off.

Mr. George Keith while cutting grass, yesterday, in the yard at his residence, was so unfortunate as to cut off one of the fingers of his left hand with a grass hook.

THE following is from the Covington Commonwealth:

Up to last night (Friday) five fatal cases of lock-jaw, caused by the toy-pistol in Newport. Since the Fourth of July, in Covington seven. In the brief time the toy-pistol is used, it is more fatal than the small-pox.

THE following is prof. Vennor's latest weather prediction:

I can not but think that August will be another month of storms and unusual rain fall, with one or two remarkably low curves of temperature. I expect snow-falls will be recorded in extreme western and northwestern sections, and cold rains at more southerly stations shortly after the middle of the month. October will be very similar, but, of course, colder.

COL. JAMES TAYLOR, of Newport, for private reasons has made a deed of trust to Wm. A. Lape. His heirs are Mrs. J. W. Abert, Mrs. T. L. Jones, Mrs. R. W. Saunders, John B. Taylor, Barry Taylor, jr., children. Col. Taylor has given his children about \$600,000 each, in trust. His estate is supposed to be worth about \$3,000,000.

THE Washington correspondent of the New York Times writes regarding politics in New York State that the opponents of Cornell for governor will attempt to weaken his support by pressing the claims of a number of other men in districts where they are respectively most popular. Cornell men state that those of the stalwart wing of the party who are to do this work are to receive aid and encouragement from the administration in the way of patronage. When everything is fixed in the convention, they say there is to be a rousing stalwart ovation, and U. S. Grant is to go in for governor with a hurrah.

COUNTY POINTS.

SARDIS.

Our Sunday Schools will unite with the Shannon school on the 29th in a pic-nic in the beautiful wood-land of R. Gault.

We regret to learn that we will lose at an early day one of our very best citizens, J. W. Tilton. However, we are glad to learn that he will locate at no great distance from us. We can ill afford his removal.

Hon. Jos. Alexander paid us a hurried visit lately.

James Bratton has the finest field of corn that we have seen in the county.

All of our crops about here are very fine save the tobacco crop.

The M. E. Church has been retouched by the artistic brush of A. Britton.

R. M. Marshall, esq., is pushing to a rapid completion the work on the Sardis and Blue Licks Turnpike.

THE EVENING BULLETIN is a great favorite with our reading people.

Henry Wood, of Washington, has been here for a day or two on business.

H. M. Pyles, one of our enterprising mer-

chants, is dealing extensively in wheat. Price paid delivered 70c. to \$1.00.

Miss Lizzie Suit, has an elegant new piano. She is a gifted musician and with piano and organ will lighten many a care, and cheer many a pilgrim who is passing on his way to the great beyond.

Vague rumors of terrible raids on the blackberries have reached us, but we are so distant from the seat of war situated in the center of the great blue grass region, that we know nothing certainly as yet.

Miss Phoebe Herndon, of Desha Valley, paid our town a visit on Wednesday.

Persons desiring to join the Rifle Club should apply to W. T. Suit.

R. N. Applegate is filling a large order from abroad for his patent safety saddle.

A correspondent of the EVENING BULLETIN says that people about Mayslick are busy taping tobacco. We can truly say of much about here that it's "tapped" for good.

Most of the vehicles around town have been supplied with a single tree that insures exemption from many of the dangers that attend driving.

We hear nothing said about our school for next year; but hope that Prof. Rummans and his excellent wife will continue to teach. Under such able management the school is an assured success.

Miss Nannie Bland has been visiting her sister, Mrs. John Kirk, of Washington. She was sadly missed from her accustomed place on Sunday at church and in the Sunday school. As an organist and vocalist, she has rare powers for one so young. MATTER OF FACT.

A collision between steamers occurred off Stratford, Conn. Nobody hurt.
